

# SlimBook

**P** 100

*Resistive Touch-screen Pen PC  
designed for mobile excellence*

## **Mobile**

The PaceBlade SlimBook is a fully fledged PC designed for mobile professionals and is known for its attractive, lightweight design and large 12 inch screen.

## **Resistive Touch function**

Now PaceBlade introduces the resistive touch version of the SlimBook; the "P Series". This model can be operated by your finger or any other convenient object. The unique "Touch" feature opens new possibilities for more efficient working methods and improved user convenience.

## **Flexible**

The PaceBlade on screen keyboard is a useful feature of the "P Series", making it possible to type directly on the screen with ten fingers. The built in wireless technology and other advantages, make the PaceBlade SlimBook a flexible tool, ideal for the demanding mobile professional.

## **Ergonomic**

The SlimBook can also be combined with the versatile SlimBook Docking Station, to increase peripheral connections and desktop ergonomics. The wireless keyboard and mouse complement the Docking Station to make the desktop set up complete.

# SlimBook
