Stylex Shower Stretcher Stainless Steel

Also available: with stainless steel white coated frame

61003070 Shower Stretcher

This high/low shower stretcher is the result of further development of the standard shower stretcher. The stretcher is adjustable to every working height. Practical experience has shown that this is an extremely useful aid for showering in a supine position and for getting dressed and undressed.

Stainless steel shower stretcher high/low hydraulics, provided with 4 braked castors, perforated Polytal web suspension, drip pan and safety rails. Adjustable in height from 50 to 95 cm.

- Extremely suitable for use in a swimming pool environment
- Mobile, with four castors, double-braked and with plastic bearings
- PVC drip pan and drainage hose
- Insert frame, with or without backrest adjustment
- One lying surface with Polytal web suspension; soft and easy to clean
- Perforated lying surface enabling good water drainage to the PVC drip pan
- Four bumper rolls on the corners to prevent damage during transport
- Option to fit two hinged safety rails
- Upholstered side rails optional

Special: example of

- Stainless steel, electric high/low
- Side rails with imitation leather upholstery
- Backrest adjustment
