SINGLE-PATIENT-USE
PRODUCTS FOR SAFE
PATIENT HANDLING
& MOBILITY SOLUTIONS
FROM BAXTER

WHY CHOOSE SINGLE-PATIENT USE?

While each patient encounter is unique, the priority is always safety. This is why single-use slings, sheets, and accessories can be used for reliable patient and caregiver support.

- Solutions for short term lifting, transferring and repositioning needs.
- Versatile solutions, designed to meet various patient mobility levels.

Various in-bed, up-from-bed, and out-of-bed activities can be facilitated using the lifts and soft accessories.

3692908-2	Solo Ultra LiftPants	XXL, XXXL	20 pcs/box

Solo HighBack Sling is appropriate for most lifting situations. It can be used for lifting patients between a bed and wheelchair, or to/from the toilet.

Solo Repo Sheet Sling is used to reposition patients who have moved down in bed or to turn bedridden patients for washing.

Solo Supportvest is used in conjunction with the Liko **Sabina** sit-to-stand lift, to raise a patient from a sitting to standing position.

Solo MultiStraps are used to facilitate examination, care, and treatment. They can also be used to turn a patient in bed and support lateral positioning.

Solo Octo LiftSheet is intended for horizontal lifting in conjunction with **OctoStretch LiftSheet**. It is designed for surgical and intensive care departments.

Solo Cover for Ultra LiftPants is a single-patient-use accessory designed for use with Liko **Ultra LiftPants**. The cover is placed over the **LiftPants** to help protect them from becoming soiled during sitting to standing transitions.
