

TruRize®

Clinical Chair

The next step in mobility.

Early patient mobility is a crucial component during the recovery process. Its importance to a patient's health and recovery cannot be emphasized enough.*

TruRize® helps to promote early patient mobility. It gives caregivers the assurance they need to carefully mobilise their patients.

Key Features

- Simple, user-friendly technology that equips caregivers with the tools to help promote efficient patient handling
- Powered-pivoting design guides the movement of TruRize® into positions that help promote patient comfort
- An industry first integrated chair exit alarm system may help to shorten response time to patient falls*
