

The background features several large, overlapping, semi-transparent geometric shapes. On the left, there is a teal circle, an orange circle, and a green circle. On the right, there is a pink circle, a yellow circle, and a blue circle. These shapes are arranged in a way that they appear to be floating or overlapping each other, creating a modern, abstract design.

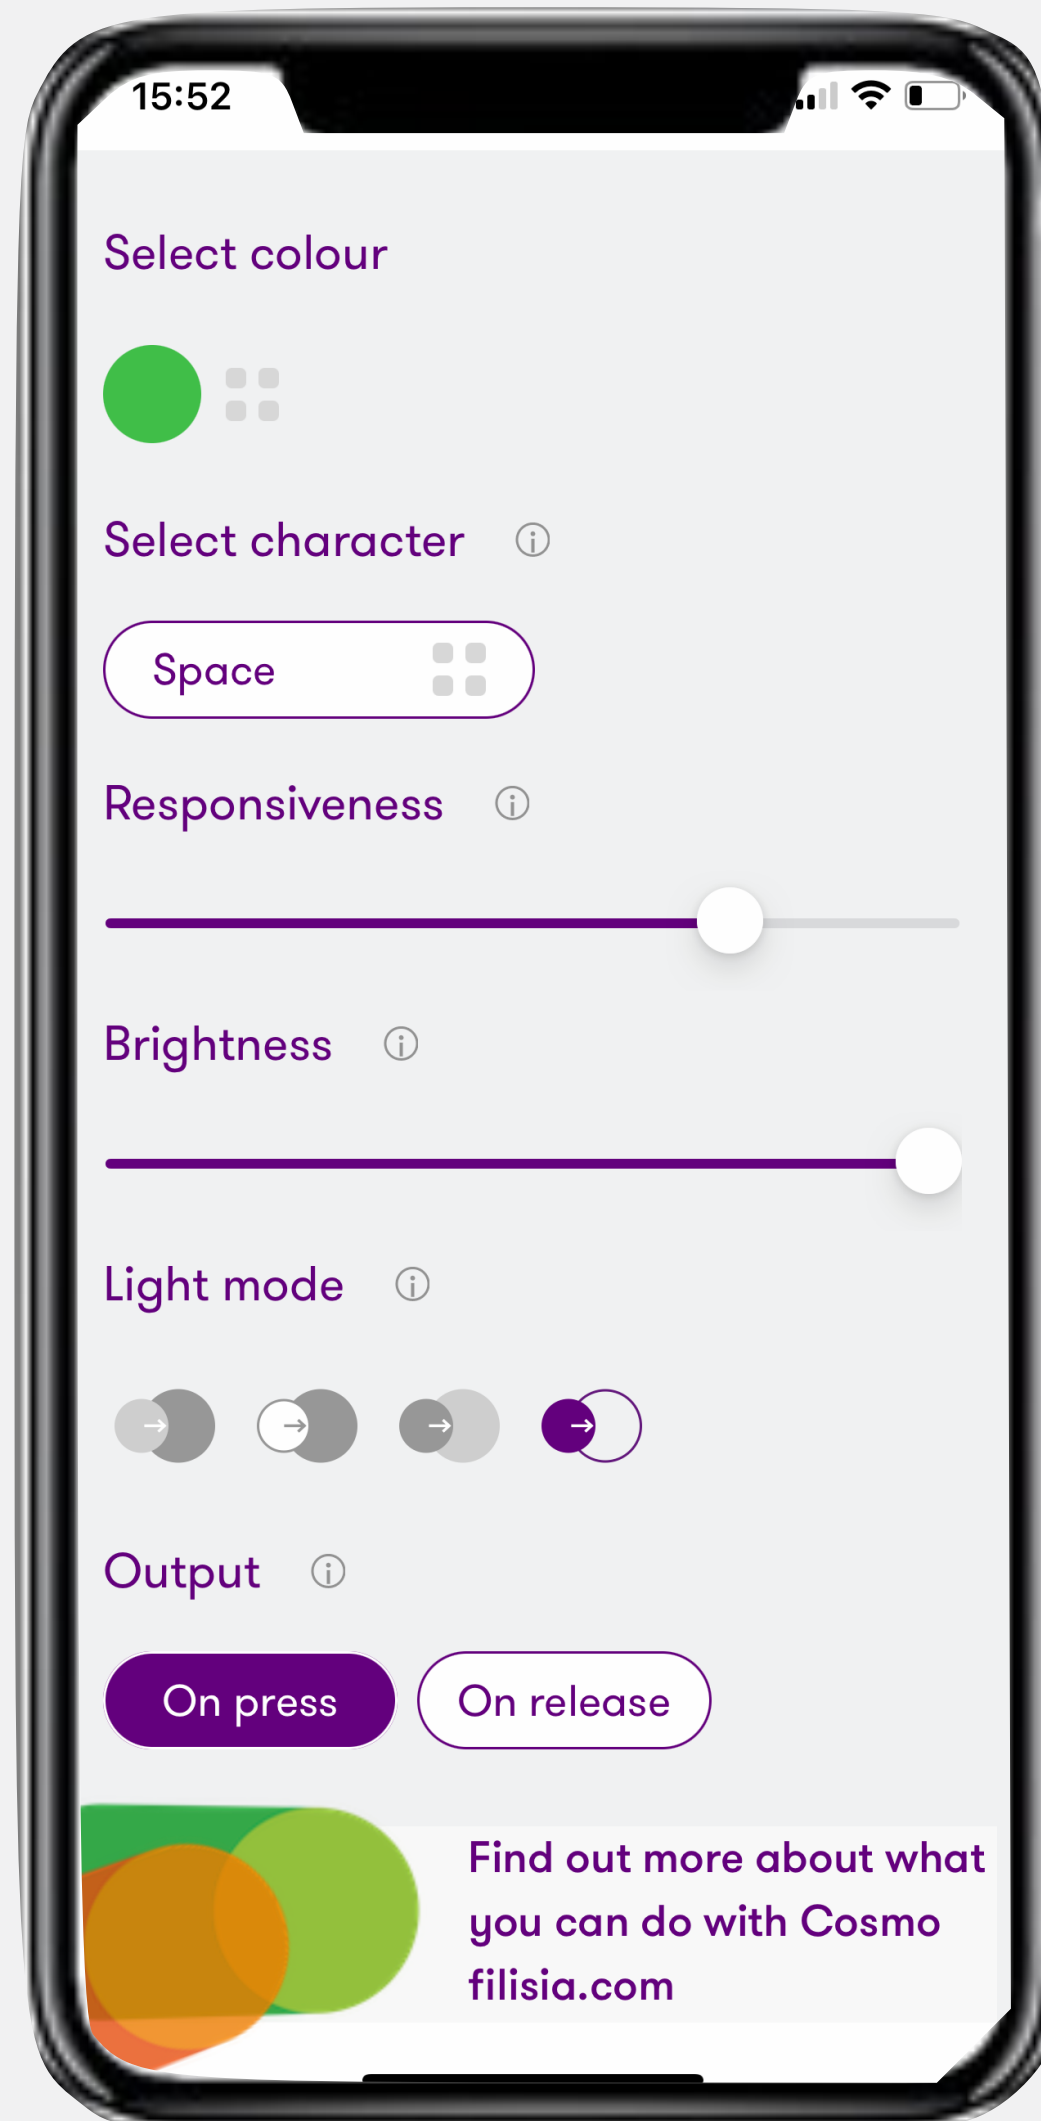

# Cosmo Switch

Presentation 2021-22

# Cosmo Switch

The world's most customisable accessibility switch.

- ✓ Access your AAC
- ✓ Navigate your Computer and Tablet
- ✓ Control your Media
- ✓ Access educational content
- ✓ Play Games
- ✓ Connect to IFTTT and more

## How Does It Work?

1. Download the Cosmo Switch App for iPhones, iPads and Adroid (free)
2. Configure your settings and tap Save.
3. Connect your switch to Windows, Macs, ChromeBooks, Androids, iPhones, iPads and more

## The Cosmo Switch

- ✓ Unparalleled and adjustable responsiveness
- ✓ Lights up in 12 colours.
- ✓ Adjustable light mode and brightness
- ✓ Long lasting battery life
- ✓ Fast and stable connection
- ✓ Exceptionally Sturdy

# Unparalleled and adjustable responsiveness

Cosmo uses a unique sensor technology which allows:

- ✓ **Touch-Sensitivity:** The Cosmo Switch can be activated with just with 50 grams of force (virtually touch-sensitive). This is less than half the force needed by the most popular switches in the market. The high responsiveness makes accessing your systems easy and reducing fatigue with extended use
- ✓ **Adjustable Responsiveness:** High sensitivity is not for everyone. Users with involuntary movement can reduce the responsiveness or delay activation.

## Lights up in 12 Colours

The Cosmo switch has LEDs inside, which allow it to light up in different colours:

- ✓ Easy to see: The embedded lights supports people with visual impairments in locating the switch. The adjustable brightness helps adjust the switch to the brightness of your environment (eg reducing brightness in a dark room)
- ✓ Easy to reach: The brightness of the device also helps people with motor and coordination difficulties reach it.

## Long lasting Battery Life

Cosmo uses top quality parts and materials. Our large, rechargeable battery and Cosmo's unique firmware ensure far fewer charges than other switches.

The duration of your charge depends on your configuration settings. Most of our customers need to charge their switch only once every 7-10 days!

## Fast and Stable Connection

With light-fast Bluetooth® Low-Energy technology, the Cosmo switch connects to all computers, phones and tablets that have been manufactured in the last 6 years.

Our exceptional electronics, ensures your switch will need to be paired just once, instead of the myriad pairings needed with other switches.

### Exceptionally Sturdy

Accessibility devices are often mishandled. But we take durability at heart.

With materials used in fighter jets, superb engineering and clever electronics, the Cosmo switch can last a lifetime. It's not invincible, but it's sure as hell sturdier than any other switch out there.

## What's in the box?

- ✓ Cosmoid
- ✓ USB cable
- ✓ Magnet
- ✓ Getting Started card
- Charger not included  
(nearly all usb chargers will do)
